At the raid the paragraphs on the classification of Iron are disposed of, it will yet take twenty days to finish the iron section of the bill, and three months to dispose of the other portions. The belief is growing atronger that the bill will be recommitted, though it is not true, as published here to-day, that the Penneylvania delegation have agreed to a recommittal. Two or three substitutes for the bill have already been prepared, and one was offered by Judd, of Illinous, to-day, proposing a graduated reduction on iron, cofee, sugar, etc., and of internal taxes, which, if adopted, will reduce laxation about sixty millions of dollars. So far to-day the low-lariff men generally carried their point, the duty on slass, blooms, etc., being cut down four dollars below the rates fixed by the Ways and Means.

The Dollars of VIECOMMITTEES did not result in much work to-day. General Camby appeared before the Appropriations relative to the auditing of accounts of officers of the millitary districts organized under the reconstruction have.

THE FENIAN CONFERENCE.

The committee of conference, appointed by the New York Fenian Congress to confer with the committee from the Chicago Congress, refused yesterday to accept the proposition for the union offered by the latter committee. It is probable that their action will be sustained by Congress. The committee stood six in favor of adopting the basis and twelve against. The basis was to depose the Fresitedia and Essuis, and re-elect a gress, and the eighth to elect the thint. As animated debate caused over the proposition from the Chicago delegation for a harmonious union of the two factions. During the discussion Major Fitzpatrick belligerently declared that the proper way to deal with the Chicago delegation would be to ellog them out of the window. Maj Lindsay announced that an Irisbman could whip a hundred Canadians, and that the Feulans were going to do it. The debate developed a strong feeling in havor of an immediate raid into Canadia.

THE DISTRILERS.

A Startling Story About the Oncida.

If you the New York Star.]

One of the officers of the Oncida, who recemity arrived in this city, stated in the presence of one of the attaches of this office, that at the time of the collision with the Bombay, all the officers of the Core is sew creatly that the vessel taking insi tall port the officers were having a "little joiltification below," and that the deck was in charge of a midshipman. He stated further, that the Bombay was not half-deck was in the control of the collision the specific that immediately after the collision the specific that immediately after the collision the specific that immediately after the collision the specific but suffers and thinking of nothing cise but suffers results, the continuous of drunkne stupor, and and were totally incapable of giving orders or attempting to preserve their own inves. Now these are very grave charges, and, for the good name of the officers of our navy, we hope they are untrue; nevertheless, the charges are made by one who escaped, and we believe it to be perfectly proper to make them public. The fact of the Oncidas officers having the order of which the wretch Zyres is the time to the order of which the wretch Zyres is that the Oncida was not properly man to defer the time, but it certainly involves a question of naval discipline, important alike to the flovernment and the people, which should be investigated.
